

1.Safety Instruction

Please make sure that the power voltage being used matches with the supply voltage of gate opener (AC110V or AC220V); kids are not allowed to touch the control devices or the remote-control unit.

The remote-control unit is single button mode or three button mode (please refer to the instructions for the remote control in accordance with the actual gate opener type). The indicator light on the remote-control unit will flicker when its button is pressed. Main engine and gate can be unlocked with a disengagement wrench and the gate can be manually operated after disengagement. Please make sure that nobody is around the main engine or gate when the switch is operated.

Please temporarily stop using the product if the main engine needs to be repaired or regulated. The installation and maintenance of the product must be carried out by professionals.

Please read this manual carefully before installing using maintaining or repairing it. Without following this manual, any injury or property losses caused by improper use or unauthorized modification is out of the responsibility of our company.

2. Technical Parameters

Model	SWG4000
Power supply	AC220V/50Hz
Motor power	260W
Opening time	9°/s~11°/s
Maximum weight of single gate	400Kg
Distance for remote control	≥30m
Remote control mode	Single-button mode/Four-button mode
Limit switch	Mechanical limit switch
Noise	≤58dB
Working duty	S2, 15min
Recording of up remote controls	25
Frequency	433.92 MHz
Working temperature	-20°C ~ +70°C
Weight	25.70Kg
